

# Bulk Oil & Lubrication Equipment for Automotive Service Operations

There is no doubt about it, lube and oil change services play a vital role in all customer retention and customer service programs. You have invested a lot in the image your business presents to your customers. You obviously want to attract new customers and keep those existing customers coming back. You want to encourage every opportunity to impress your customers and make them confident and comfortable in the business relationship they have with you. What better way to keep gaining the opportunity to impress and build solid relationships with your customers, than through a routine required service such as oil and lube.

**Making the decision to provide a convenient and efficient oil and lube service is just one of a number of important decisions you have to make.** Your success hinges on your ability to provide fast, dependable service, day in and day out, at a reasonable cost. You need to select the right equipment and that is just what Applied Lubrication can provide for you. We have many years of experience in the application, design, fabrication and installation of lubrication and associated equipment for businesses just like yours. **Whether your requirements are SMALL or LARGE, GENERAL or SPECIALIZED we are ready to help you select the equipment that is best suited to your requirements.**
