# ADD PERFORMANCE AND STYLE TO YOUR WHEELS

## HOFMANN POWER WEIGHT 380

IN NINE COLORS

Our new Type 380 premium balancing weight was developed for motor sports and offers the highest performance for the toughest demands. Produced to OE standards and optimized for the technician, the Type 380 weight has a resilient powder coating for permanent corrosion protection. With its patented production procedure, the Type 380 adhesive weight is easy to attach and perfectly

adapts to the rim contour. With 12 segments of 5 grams each, it can be easily counted and then divided by the perforated adhesive tape if required.

Dimensions: 6.75" (length) x 0.75" (width)  
Total height including adhesive tape: 0.16"

# HOFMANN POWER WEIGHT 380

IN NINE COLOURS

## Perfect fit

With grid bridge technology, the Type 380 weight adapts quickly and easily to the rim radius. The bridge ensures a stable connection between the individual segments to aid in mounting.

## Easy separation

The unique perforation of the adhesive tape permits easier division of the individual segments in the desired grammages. Cutting tools are no longer required and you will get a perfect balancing result more quickly.

## Strong adhesive

Our proven adhesive tape technology ensures strong adhesion on all common rim types under all circumstances.

## Environmentally Safe

This weight type is made of a premium zinc alloy and is safe for the environment.

## Design

Featuring the highest-quality manufacturing process, our weights visually enhance every rim design.

## Corrosion Resistance

High-quality powder coating to OEM criteria protects the weight from corrosion in any weather. This also protects the rim from contact corrosion.

## Nine Colors

The new Type 380 weight is available with high-quality powder coating in white, silver, anthracite, black, blue, yellow, orange, red as well as chrome-plated.

## Type 380

Part No.	Size	Color	Piece Count
